### Sharing Eligibility

- Qualifying illnesses are eligible for sharing 30 days after diagnosis
- Illnesses resulting from pre-existing conditions are eligible after 24-months of continuous membership
- Illnesses must be diagnosed during active program enrollment and cannot be a result of attempted suicide, self-inflicted injury, operating a motorized vehicle under the influence of drugs or alcohol, non-prescribed drug use, illegal activity, incarceration or war/pandemic/famine
- Services must be rendered by any licensed care provider (services cannot be rendered by a family member, even if licensed)

Members ages 18-64 are eligible for S.M.A.R.T. Care enrollment. Any remaining benefits will expire when a Member reaches age 65 or receives the maximum share amount. The Sharing Member is eligible for up to 100 percent of the maximum sharing limit. If needed, the spouse of the primary Sharing Member is eligible for up to 50 percent, while dependents are eligible for up to 25 percent of the maximum share limit. The total amount paid from shared dollars shall not exceed the maximum share limit.

Once an illness is qualified and considered eligible, Sharing Members are eligible to receive 100 percent of the designated benefit amount, up to your selected maximum lifetime share limit. Should a qualified incident leverage less than the maximum lifetime share limit, the balance remains eligible for sharing for future eligible expenses. For eligible medical services, expenses from any care provider are eligible for sharing. There is not a provider network designated for S.M.A.R.T. Care.

Benefits are available following 60 days of continuous membership with WeShare, unless the critical illness is a result of a pre-existing condition. If the illness resulted from a pre-existing condition, benefits are available after 24-months of continuous membership with WeShare. See the glossary for a definition on pre-existing conditions.

Upon diagnosis of a qualifying illness, related expenses are eligible for sharing 30 days after diagnosis, treatment and/or loss of active employment income.

### Sharing Related Expenses

In the event a Sharing Member is diagnosed or treated with a qualifying medical condition outlined by this program, S.M.A.R.T. Care helps Members pay for unexpected costs typically not included in primary healthcare benefits. The S.M.A.R.T. Care program can provide sharing to help pay for extra medical and out-of-pocket expenses related to the illness, including childcare, emergency transportation, paycheck protection, utilities, auto payments, insurance (home, auto, health), mortgage, rent, extended care services, mental health/family counseling and afterlife care. Sharing pays for 100 percent of eligible expenses for all qualifying illnesses, which include:

**Stroke** – The death of brain tissue due to an acute cerebrovascular event. There must be evidence on a CT, MRI, or similar imaging technique that a stroke has occurred, and new neurological deficit persisting 30 days after the event that results in a score of 2 or higher on the modified Rankin scale for stroke outcome. No benefit will be eligible for sharing as the result of transient ischemic attack or cerebral injury from trauma or hypoxia.

## A.I.D.D. Care Terms & Conditions

A.I.D.D. Care Member sharing is available upon first effective date for qualifying accidents following the Member's initial monthly contribution, with a \$250 Member sharing fee per incident.

### How It Works

In conjunction with WeShare healthshare programs<sup>3</sup>, A.I.D.D. Care shares medical expenses for qualifying accidents up to your selected maximum share limit, per incident. Adding this sharing program is easy with no medical questions required to qualify. Maximum sharing levels are available upon effective date and payment of initial monthly contribution, with no waiting period required. Primary Members must be 18 years of age or older to apply.

### Medical Expenses

A.I.D.D. Care shares associated costs for qualifying accidents, including any unmet AMCS amounts with core WeShare healthshare programs. Eligible shared medical costs include transportation and ambulance services, specialized therapy treatments, in-home recovery care, and more. This sharing assistance is in addition to WeShare healthshare program membership sharing. This is a reimbursement program, Members must submit requests for sharing and supporting documentation to access their benefit. Members are always responsible for their own medical bills, less any shared dollars applied.

### Eligible Incidents

Qualifying accident sharing typically includes treatment for fractures, lacerations, burns, diagnosed concussions, emergency room and urgent care visits within 48 hours of the incident. Additionally, the following services and treatments are commonly eligible for sharing within 30 days of the qualifying incident: ambulance, anesthesia, related doctor visits, fractures, labs, X-rays, MRI, CT scans, related prescriptions, prosthetics, surgeries, and hospital stays including ICU.

### Serious Accidents & Dismemberment

Accidents come in many shapes and sizes. A.I.D.D. Care assists with not only hospital and treatment-related expenses, but also more serious incidents like the loss of a limb, which could require prosthetics, special home accessibility modifications and more.

**Annual Member Care Share (AMCS)** – The amount each Sharing Member commits to paying their care provider when obtaining services, before the primary Sharing Program (WeShare or WeShare Access) will contribute towards eligible medical needs. This amount is based on the selected Sharing Program tier and is accumulated as medical services are received throughout the calendar year, from January 1 through December 31. AMCS must be met for each individual Sharing Member within a calendar year, including the Sharing Members that are considered dependents. For families, a minimum of two members must meet their maximum AMCS within a calendar year. After the AMCS is met for the calendar year, all eligible medical costs subject to the AMCS are shared at 100%, for all family members. Generally, and unless otherwise noted, the AMCS applies to services obtained. However, certain services are not subject to the AMCS and may be shared at 100% or only require a consultation or service fee, which is listed herein. If a consultation or service fee applies, it will continue to apply even after the AMCS is met. There is no AMCS to meet before S.M.A.R.T. Care will help you pay for expenses, which means 100% of eligible costs are shared by the program.

**Eligible/Eligible for Sharing** – A status indicating that a Sharing Member has met the conditions, those which qualify for sharing, as described in the membership guidelines, and as aligned with the parameters of the Sharing Program. Eligible for sharing expenses are those medically necessary services, supplies and/or treatment that are eligible for sharing under this Health Sharing Program. Charges for services, supplies, and/or treatments meant to treat or correct a preventable condition or cost which arises solely due to a provider's medical error are not considered eligible for sharing expenses. A finding of Provider negligence and/or malpractice is not required for service(s) and / or fee(s) to be considered not reasonable and allowed or not eligible for sharing.

**Maximum Lifetime Share Limit (Share Limit)** – The maximum amount the program will share, per family, per lifetime. If a Member upgrades their program, increasing their share limit, previously accumulated dollars will be deducted from the new share limit amount.

**Medical Need(s)** – Charges or expenses rendered for medical services provided by a facility or a licensed medical professional to address illnesses or accidents.

**Medically Necessary** – A service, procedure, or medication necessary to restore or maintain physical function and is provided in the most cost-effective setting consistent with the Sharing Member's condition. The fact that a medical professional may prescribe, administer, or recommend services or care does not make it medically necessary, even if it is not listed as a membership limitation or an ineligible need in the membership guidelines. To help determine medical necessity, WeShare may request the Sharing Member's medical records and may require a second opinion from a third-party medical professional.

**Membership Guidelines** – A document which provides the recital of guidelines by which Sharing Members agree to. The membership guidelines describe the program elements, resources, membership details, and any stipulations/limitations that apply to membership and Sharing Programs. The membership guidelines help Sharing Members understand how monthly contributions are shared in accordance with the escrow instructions.

**Pre-Existing Condition** – Any medical condition that a Sharing Member has prior diagnostics, represented symptoms for, been examined related to, and/or has received treatment prior to becoming an Active Sharing Member of WeShare or WeShare Access – whether known to a Sharing Member or not– is considered a pre-existing condition.

**Sharing Member** – Those who have applied to become a WeShare or WeShare Access Sharing Member and agreed with the Statement of Faith and Shared Beliefs, the sharing membership commitments, and the escrow instructions. Sharing Members must choose a Sharing Program, submit scheduled monthly contributions, through the form of direct payment, and are not to be ineligible as a result of any other reason (including age restrictions). Sharing Members may submit eligible medical needs for sharing in conjunction with the member guidelines, the specific Sharing Program and the escrow instructions.

**Sharing Program** – A program that helps Members manage medical expenses using contributed funds by its Member community. From WeShare to S.M.A.R.T. and A.I.D.D. Care, UHSM's suite of Sharing Programs offer a variety of designs to meet varying Member needs.
